---

## TECHNICAL SKILLS

JavaScript, React, Gatsby, GraphQL, Linux, HTML/CSS, Bootstrap, Git/GitHub, Shopify

## EDUCATION

### **Bootcamp, Serverless Web Development**

OCT 2021

Vets Who Code – Remote

### **Bachelor of Science, Business Management**

DEC 2020

Western Governors University – Remote

## PROFESSIONAL EXPERIENCE

### **Chief Operations Officer**

FEB 2019 – Present

Kwik-Hang – North Attleborough, MA

- Creates operational procedures for shipping, inventory management, and order fulfillment resulting in increased productivity and inventory/order accuracy.
- Edits Shopify templates for theme updates and adding new features. Also integrates Shopify apps and configures them to increase sales and SEO.
- Attends consumer shows to build brand recognition, industry networking, and generate sales on site.
- Expands distribution into foreign markets to increase our brand reach and revenue.

### **Warehouse Manager**

MAR 2016 – FEB 2019

Overhead Door Company – Stoughton, MA

- Managed seven two-person crews of technicians, trained multiple warehouse personnel, and maintained all company vehicles, equipment, and grounds.
- Trained the sales team to use Salesforce products to improve customer relationship management.
- Quickly made scheduling and job changes on the fly by troubleshooting errors and oversights to satisfy job requirements and deadlines.
- Created detailed Excel sheets for purchase orders, scheduling jobs, and account management.

### **Aircraft Loadmaster**

MAR 2012 – JULY 2016

Air Force – Various Locations

- Mathematically planned the correct placement of cargo, passengers, and fuel to ensure the proper center of gravity of the aircraft.
- Conducted pre/post flight inspections and troubleshooting of all avionics systems.
- Supervised and coordinated with customs, agriculture, and other foreign and domestic government agencies as needed to complete the mission.
- Obtained Associate of Applied Science, Aviation Operations degree.

## PROJECTS

### **Job Search**

<https://vetswhocode.io/jobs>

- Added a new feature to the VWC website using React/Gatsby to help find tech jobs for veterans.
- Wrote unit tests for all components created to ensure stability and quality of code.
- Collaborated with other developers, pair-programmed, and met with maintainers to complete app.
- Leveraged VWC as a non-profit to acquire a sponsor in Adzuna allowing us access to a job database API.

### **Portfolio**

<https://wheresteve.codes>

- Used the Dev.to REST API to add blog posts to help build my brand and educate others.
- Utilized lighthouse and other tools to ensure excellent accessibility, performance, and SEO allowing for the best user experience.
- Took advantage of multiple JavaScript libraries to add features and functionality.
